Mérieux NutriSciences is pleased to invite you to the **FREE WEBINAR on PFAS and the impact the new Regulation and Recommendation have on the agri-food supply chain.**

FREE WEBINAR**New PFAS Regulation:
*instructions for food industries***

Wednesday 22 February 2023

7.30 pm – 8.30 pm (IST)

Language: English

Register Now !

Being ubiquitous and persistent compounds with high mobility, the sources of PFAS contamination are numerous. This webinar will focus on the food supply chain and the involvement of packaging and water, too.

The speakers

Giampaolo Perinello - *Analytical Chemistry Sr. Scientist, Mérieux NutriSciences Italy*

Andrea Vittadello - *Sustainable Packaging Project Manager, Mérieux NutriSciences Italy*

Paola Verza - *Special Project Manager Environment BU, Mérieux NutriSciences Italy*

The agenda

- General overview
- Regulatory framework, with a focus on European developments
- The **analytical solutions of Mérieux NutriSciences**
- Positive findings: past VS present
- **The impact is on the entire supply chain:**
 - Monitoring extended to matrices not yet subject to legal limits
 - **A look at packaging and water.** What do food companies need to consider?
- **Take home message and future perspectives**
